

Product features

• **Long Distance Scanning :**

Uses foreign third-generation short / long-range dimensional scanning engine, the longest scanning distance reaches up to 15m (50ft), perfect support 1D/2D barcode reading and writing, Capable of reading the poor quality, damaged and low resolution codes with less than 3 mil.

• **Powerful Endurance:**

3800mAh dual-core high capacity anti-explosion battery persistently provides power for over 10 working hours. Charging cradle optional, can charge device and battery simultaneously, great for work in shifts

• **Resourceful Configuration :**

Adapts all kinds of scanning engines, supports WI FI/Bluetooth/WC D MA/EVDO/G PRS etc. communication transmission modes.

• **Industrial Grade:**

TPU Bi-colors rubber protected body encapsulation and high density magnesium aluminum alloy framework, the device endures drops from the height of 2.5m and 1000 tumbles within 1m.

• **High-speed Performance :**

With WinCE6.0 Operating system, matching PXA310 806MHz high speed processor with perfect compatibility and computing power.

• **Stable Wireless Connection :**

Supports 802.11 a/b/g/n full-band wireless communications, specially designed for matching large warehouses and other complex environments with WIFI technology. Excellent anti-disturbance performance, perfect data transmission provides more stable, efficient wireless support.

Applications
