

Product features

- **Ultra-sensitive Large Touch Screen**

Adopting iPhone6 display technology, the 5.0 inch HD screen with a resolution of 1280x720 achieves excellent display effects, delivering a delicate and clear visual experience.

- **High-speed Operation Performance**

Android 5.1 operating system, matching MediaTeckta-core 1.3G high-speed processor, supports DUAL SIM cards, strengthens the protection mechanism. The PSAM card properly satisfies the requirements of the financial industry and government agencies relating data security.

- **Powerful Endurance:**

3.8V 3800mAh dual-core high capacity anti-explosion battery persistently provides power for over 8 working hours. Special POGO PIN charging interface, realizes rapid charging without wear-down ensuring the durability of the device.

- **Excellent Identification Ability :**

Fully 1/2D code scans with an ultra-strong decoding and quick identification ability.

- **13MP HD Camera:**

With a 13 mega pixel rear camera and a 5 mega pixel front camera, any application requirement of any enterprise can be met.

- **Industrial Durability:**

IP65 industrial grade, solid and light body can bear the height of 1.5m drops. Thin and light design, Waterproof and dustproof, ensuring a long life without the loss of performance

Applications
